PAEDIATRIC CLINIC OF THE YEAR

EPIC Solutions

EPIC (Exeter Paediatric Integrated Care) Solutions are experts in the assessment of children, young people and young adults, recognising that neurodevelopment continues up to the age of 25. The clinic's consultant-led, multidisciplinary team of exceptional healthcare professionals, each bringing specialist expertise and genuine compassion to their work, has resulted in the company gaining a stellar reputation in the sector. The team includes psychiatrists, a paediatrician, clinical psychologists, nurses, mental health practitioners, speech and language therapists, occupational therapists, a physiotherapist, a creative therapist, a dietitian and even an emotional support dog who plays an important role in helping clients feel calm and safe.

The judges were particularly impressed by the comprehensive paediatric services available from the experts at EPIC Solutions. The clinic offers an extensive range of assessments, therapies and interventions, addressing neuro-developmental differences, learning and educational challenges, experiences of attachment and trauma and eating or nutritional difficulties. The clinic's mental health work especially focuses on the impact of difference, adversity and disruption, helping young people to understand their experiences and develop resilience and confidence for the future.
